MINING NEWS

Mining Developments in Southeastern Arizona

The Range News is informed that the Copper Belle at Turquoise will immediately begin the erection of a fifty-ton smelter.

Geo. J. Weber, accompanied by several gentlemen arrived in Wilcox from Kansas City, Sunday, on mining business.

J. J. Howard visited Wilcox lately. He has some valuable mining property at Dos Cabezas, which he is developing.

The Gold Coin Prospecting and Development Co.'s outfit headed for Mexico this week, where they expect to take hold of some properties and start operations immediately.

G. Bibbins was in Wilcox from Dos Cabezas this week. He will go to Mexico again in the near future and attend to some business for his company there.

H. J. Clifford and H. S. Wien were down from Johnson the other day. Johnson is one of the most promising camps in this section and will soon be infused with new life and activity. The mineral showing throughout the camp is simply phenomenal—Range News.

John Anderson came down from his Aravaipa ranch this week with a load of vegetables. He had not visited Florence before in eight years. We learn from him that operations at the coal fields on Deer creek are temporarily checked. The diamond drill has reached a depth of only 150 feet, and the shaft sunk nearly, has reached a depth of 100 feet. Mr. Anderson is one of the original discoverers of the Deer Creek coal fields and owns one of the most promising claims in the district. He has bonded it to the company now exploiting the coal fields.—Times.

Rich ore has been struck on the 700-foot level of Lake Superior and Western in the north drift. The ore is good

and the drift is all in ore. Assays of a satisfactory nature have been made. A new hoist of the latest pattern has also been ordered. The shaft will be very expensive, in three compartments, and only 75 by 30 feet. This will take an enormous amount of lumber. The Lake Superior is one of the mines that will add to the fame of this region. It has all the prospects of a mine with inexhaustible ore bodies, the development work is carried on with system and skill, and under the best management.—Cochise Review.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects; such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heartburn, Waterbrash, Gnauling and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth. Coming up of Food after Eating Low Spirits, etc. Go to your Drug-gist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac.

GROOM CREEK ITEMS.

The Gold Basis claims, with Judge Slack's property, making a group of two claims, has been bonded by a Mr. Worth. The properties are situated on Groom creek. Two steam hoists will be put up at once and work will be pushed rapidly as money and men can do it.

Dan Monahan is running three eight-hour shifts on the Home Run mine, the property bonded from Jim O'Connell. Mr. Monahan now has a shaft down 120 feet and the prospects look remarkably well.

The Empire mill of five stamps is running steadily, and the company has enough good ore in sight to run twenty

days. The scarcity of water is the reason for the running of the limited number of stamps. The company is prospecting for water with the hope of developing a sufficient supply to increase the mill's capacity.

The Monte Cristo, Harry Blauvelt, superintendent, struck it rich a few

days ago. The ore assays 29 ounces gold and 216 ounces silver. The strike was made in a shaft over 100 feet deep.—Prospect.

No one is surprised at learning that an Archibson girl who spells her name "Nellye Grayce" writes the name of her saviour as "Jesus Christ."
